## OBJECTIVE

Full Stack Developer with hands-on experience building scalable MERN-stack applications, REST APIs, and production-ready deployments using Docker and AWS. Skilled in React.js, Next.js, Node.js, and MongoDB with strong focus on performance, responsive UI/UX, and real-world business solutions.

## EDUCATION

### Bachelor of Computer Application- Computer Applications

Jul 2019 - Jun 2022

Graphic Era Deemed to Be University, Dehradun

### Master of Computer Application- Computer Applications

Jul 2022 – Jun 2024

Graphic Era Deemed to Be University, Dehradun

## SKILLS

**Frontend:** React.js, Next.js, JavaScript (ES6+), React Router, Tailwind CSS, Material UI, Framer Motion, Chart.js

**Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication, Role-Based Access Control (RBAC), MongoDB, MongoDB Atlas

**DevOps & Deployment:** Docker, AWS EC2, AWS ECR, GitHub Actions, VPS Hosting, Traefik, SSL/TLS Configuration, Domain & DNS Management, Easy Panel

**UI/UX & Integrations:** Responsive Design, SEO Optimization, Google Maps API, TipTap Editor, Formik, Yup

**Tools & Version Control:** Git, GitHub, Postman

## EXPERIENCE

### Full Stack Developer & Trainer | InsureTech Skills

Dec 2025 – Present | Dehradun, India

- Redesigned the company's WordPress website into a scalable **MERN**-stack application using **Next.js**, **Node.js**, and **MongoDB**.
- Built and customized client websites and full-stack solutions based on business requirements.
- Assisted US-based clients in developing and enhancing the **ChildPlanner LMS application**, available on both **web** and **mobile** platforms, by contributing to feature development and technical discussions.
- Developed secure **REST APIs** with role-based authorization for student and parent access workflows.
- Implemented parent-child validation logic and enhanced existing **APIs** without creating additional endpoints.
- Tested authentication and authorization flows using **Postman** and middleware-level validation.
- Managed production deployments using **Docker**, **AWS EC2**, **AWS ECR**, and **GitHub Actions**.
- Investigated deployment issues, validated **Docker image versions**, and monitored live production environments.

---

### Full Stack Developer | Paradise Yatra

Aug 2025 – Oct 2025 | Dehradun, India

- Built and maintained a full-stack travel platform using **Next.js, Node.js, Express, MongoDB, and Docker**.
- Developed a secure **admin panel** with authentication, CMS, and SEO tools.
- Designed and implemented **50+ REST APIs** with JWT authentication, validation, and MongoDB Atlas.
- Enhanced UI/UX using **Framer Motion**, responsive design, and reusable components.
- Implemented advanced features including **smart search, calendar picker, rich text editor, and image proxy handling**.
- Optimized performance through **lazy loading, code splitting, and caching**.
- Deployed applications on **VPS** using **Docker, Traefik, SSL, DNS, and domain mapping**.
- **Live Project:** paradiseyatra.com

---

### MERN Stack Developer | Delonix Travels

May 2025 – Aug 2025 | Dehradun, India

- Developed **CRM dashboards** with responsive layouts, analytics, and charts.
- Implemented **secure authentication**, API integrations, and global state management.
- Worked on **TripBazaar.in frontend**, refactoring code with modular components and API-driven architecture.
- Improved UI/UX including **responsive layouts, advanced filters, calendar fixes, and maps integration**.
- Implemented booking-related features such as **GST handling, invoice/voucher generation, and room/meal selection**.
- Assisted in deployment on **Hostinger VPS** using **Docker and EasyPanel**.
- Configured **Traefik reverse proxy, SSL/HTTPS, domain mapping, DNS, and Docker Hub images**.

## PROJECTS-

### Paradise Yatra – Full Stack Travel Platform

[Paradise Yatra - Your Trusted Travel Partner | Best Travel Agency in Dehradun](#)

- Built a scalable travel booking platform using Next.js, Node.js, Express.js, MongoDB, and Docker.
- Developed secure admin panel, CMS, SEO tools, and 50+ REST APIs with JWT authentication.
- Deployed and managed production infrastructure using VPS, Docker, Traefik, SSL/TLS, DNS, and domain mapping.

---

### InsureTech Skills – LMS & Training Platform

[insureTech Skills | IT Training & Certification Courses — AWS, Azure, DevOps, Cybersecurity](#)

- Redesigned the company website from WordPress to a scalable MERN-stack application using React.js, Next.js, Node.js, and MongoDB.
- Developed secure role-based authentication, parent-student workflows, REST APIs, and middleware validation.
- Managed deployments using Easy Panel, Docker, GitHub Actions, and tested APIs using Postman.

---

### TripBazaar – Hotel & Travel Booking Platform

[TripBazaar — Book Hotels at Best Prices](#)

- Developed responsive hotel booking interfaces using React.js, Node.js, Express.js, and MongoDB with reusable components.
  - Implemented GST handling, invoice/voucher generation, room/meal selection, filters, calendar fixes, and maps integration.
  - Assisted in deployment using Docker, Easy Panel, Traefik, SSL/HTTPS, VPS hosting, and domain configuration.
-
